TCIM Americas NETWORK

Traditional, Complementary, and Integrative Medicine Network of the Americas

The Traditional, Complementary, and Integrative Medicine Network for the Americas

"Eight years of weaving knowledges and strengthening the articulation of Traditional, Complementary, and Integrative Medicine into health systems in the Americas

The TCIM Americas Network is a "network of networks" bringing together institutions and organizations that formulate policies, regulate, train professionals, conduct research, develop programs, and educate the general public regarding TCIM. Through collaboration and knowledge management, the Network seeks to support health decision-making and strengthen the capacities of professionals and managers in TCIM, including research, to contribute to the well-being of people and to make health systems more inclusive and sustainable, thus advancing toward Universal Health.

2015 In Nicaragua, the health ministry, the PAHO/WHO country office, and BIREME initiate a collaboration that lays the foundation for developing health information products for Traditional, Complementary, and Integrative Medicine (TCIM)

2016 BIREME develops TCIM infometrics and prepares a proposal for the creation of the Virtual Health Library on Traditional, Complementary, and Integrative Medicine for the Americas (VHL TCIM Americas).

2017 At PAHO TCIM Regional Meeting in Managua, BIREME presents the VHL TCIM proposal, countries established the TCIM Americas Network and, with BIREME's support, began developing the VHL TCIM, and its thematic structure.

2018 Launch of the VHL TCIM Americas, consolidating regional committees and collaborative outreach actions.

2019 Strengthens international collaboration through participation in global congresses and partnership with the WHO TC&M Collaborating Center in Peru, RedePICS, ObservaPICS, and the CABSIN Network.

2020 Develops COVID-19 evidence maps with CABSIN and BIREME, creates the "Window of Knowledge", and organizes the Symposium and Webinar Series on TCIM contributions to the pandemic.

2021 With PAHO Colombia, produces materials on mental health and wellbeing, and with the Peruvian Medical College co-organizes the 2nd World Summit on Traditional and Complementary Medicine.

2022 Develops the "Traditional Medicines of the Americas" Window of Knowledge and advances the second phase of the DeCS TCIM terminology project.

2023 Expands content on Traditional Medicines and updates regulatory data from 35 countries. Supports the regional compilation for the WHO Global Traditional Medicine Summit in India.

2024 Contributes to the development of the Traditional Medicine Global Library (TMGL) and the update of the DeCS TCIM category. Strengthens institutional coordination and joins the TCIH Coalition Board.

2025 Partners with the 3rd WCTCIM and contributes with the TCIH Coalition to the Global Advocacy Roadmap Workshop for implementing the WHO TM Strategy.
